

Florida Water Resources Journal

The **Florida Water Resources Journal** is owned by and is the official publication of the Florida Water Environment Association. It is co-owned with the Florida Section of the American Water Works Association and the Florida Water & Pollution Control Operators Association. The journal is mailed monthly to all FWEA members.

We Are All About Water!

The **Florida Water Resources Journal** contains information and topics concerning Florida's more than 3,000 domestic and 1,500 industrial wastewater facilities, its 7,000 drinking water systems, and a myriad of wetlands and other surface water agencies. The fourth largest population in the U.S. with over 16 million people, Florida is the third fastest growing state and is continually adding, repairing and improving water and wastewater services. It is mailed on the first day of the month to all members of the sponsoring organizations.

Published Monthly, the Florida Water Resources Journal is a technical publication oriented toward water treatment and distribution, wastewater collection and treatment, and stormwater control. (<http://www.fwrj.com>)

We publish technical articles, columns, notices and announcements, committee reports and other association business, letters to the editor, and press releases relating to new products, new literature, and general news.
