# Division of Agricultural Environmental Services

Boom sprayer getting ready for an application. FDACS ensures that pesticides in Florida are used in accordance with label directions.

The Division of Agricultural Environmental Services administers various state and federal regulatory programs concerning environmental and consumer protection issues. These include state mosquito control program coordination; agricultural pesticide registration, testing and regulation; pest control regulation; and feed, seed and fertilizer production inspection and testing.

The division ensures that pesticides are properly registered and used in accordance with federal and state requirements; mosquito control programs are effectively conducted; and feed, seed and fertilizer products are safe and effective.
